Three vignettes highlight the surreal in this 1980 classic comedy written and directed by Jamie Uys. Among the three, the one about a Coke bottle falling out of the heavens and becoming a one-of-a-kind object coveted by everyone in a small African village is a cult favorite. The bottle creates such dissension that its finder, Nixau, decides the gods must've been crazy to give such a gift, so he sets out to drop it off the edge of the world.

This delightful sequel to the hilarious hit comedy is a piece of divinely inspired lunacy! Xixo again collides with the so-called civilized world when he embarks on a search for his children, who are accidental stowaways on a poacher's truck. He soon crosses paths with two very odd couples lost in the desert. Xixo, perplexed by their strange antics, nevertheless finds himself drawn into a crazy adventure with people who need to be saved from the wilderness and from each other.
